**NOTICE OF A PUBLIC EVIDENTIARY HEARING**

**TO: ALL CUSTOMERS OF DELMARVA POWER & LIGHT COMPANY**

A Hearing Examiner of the Delaware Public Service Commission (the "Commission") will conduct an evidentiary hearing concerning the above-captioned case (as further explained below) at the following time and location:

<u>DATE</u>	<u>TIME</u>	<u>LOCATION</u>
Monday, April 30, 2012	10:00 a.m.	Carvel State Office Building, Third Floor Conference Room 820 North French Street, Wilmington, Delaware 19801

On August 31, 2011 Delmarva Power & Light Company ("DP&L" or "the Company") filed with the Commission the above-captioned application seeking approval to modify its Gas Cost Rates ("GCR") effective on November 1, 2011, with proration, as follows: (1)

revise the volumetrically applied GCR factors applicable to the RG, GG, GL, and non-electing MVG Service Classifications; (2) revise the demand charge for the non-electing MVG, electing MVG and LVG and Standby Service Classifications; and (3) reconcile and true-up actual versus estimated monthly Commodity Cost Rate assignments for sales under the LVG and so-called "electing" MVG Service Classifications. In addition, the Company proposed the following revised GCR rates:

<b>Rate Schedules</b>	<b>Current</b>	<b>Proposed</b>	<b>Change from Current</b>
RG, GG, GL	94.042¢/ccf	88.804¢/ccf	(5.2380) ¢/ccf
LVG and MVG Demand	\$12.0266/Mcf of MDQ	\$11.0936/Mcf of MDQ	(\$0.9330)/Mcf
Non-Electing MVG Commodity	\$7.5811/Mcf	\$7.1740/Mcf	(\$0.4071)/Mcf
LVG and Electing MVG Commodity	Varies Monthly	Varies Monthly	N/A

In the Company's prior GCR case (Docket No. 10-295F), the Commission authorized the Company to amortize the projected \$24.9 million under-recovery over two years in order to mitigate the impact on its customers of a full recovery of that deficit in the 2010-2011 GCR year. The Company's current under-recovered position as of the date of its filing is \$19,759,576, which includes the \$12,430,976 second-year amortization balance from the under-recovered balance in the 2010-11 GCR year. The Company proposes to recover the full under-recovered balance in rates for the 2011-12 GCR year. The Company represents that even allowing for this full recovery of the previously under-recovered balance, the typical residential customer using approximately 120 ccf of

natural gas during a winter month will experience a decrease in his overall bill of 3.7%, or \$6.29.

On September 20, 2011, pursuant to PSC Order No. 8040, the Commission permitted the proposed GCR modifications and other requested revisions to the Company's tariffs to become effective for usage on and after November 1, 2011, with proration and subject to refund, pending further review and final decision by the Commission.

Evidentiary Hearings are conducted to formally introduce evidence into the record and to make available for cross-examination the parties' witness testimony, including testimony that may be offered with respect to any settlement agreement that may be reached prior to the hearings. Members of the public are invited to attend the evidentiary hearings as observers, but only the parties are permitted to present witnesses or cross-examine witnesses. In accordance with 26 Del. C. § 305, the Commission will make its decision concerning this matter on the basis of the evidence of record taken at the public evidentiary hearing and will consider the public comment received at the public comment hearing, which has already taken place on October 25, 2011.

Anyone who plans to attend the evidentiary hearing is cautioned to consult the Commission's website on the day of the hearing for cancellation of or changes in the time, place or date of the event.
